Enya Nova AcousticPlus Concert Ukulele

UkeStuff.info Rating

4.5 Ukes

Summary Statement

This is the AcousticPlus version of the Enya Nova, a polycarbonate ukulele with some carbon fiber strands in a thinline cutaway configuration which is painted. It comes well equipped with color matched accessories. The AcousticPlus adds reverb and chorus without an amplifier but it is soft (volume) and best for solo practice (the effects can be sent to an amp). Need the Nova to be more "rugged"? Get the acoustic version. Do you have any interest in the electronics? Get this one.

The case has some issues and like the acoustic version, the strap is wide and capo is plastic. Some initial (limited) reports of fret wear with the 1st generation—but mine are not showing wear. I have experienced some occasional buzzing from the electronics (inside and out). Body heavy (though slightly).

Interesting style: cut away, curved back, styled fretboard, slotted bridge, sound holes, minimal electronic panel. Paint may chip/scratch with use and the ukulele is not meant to be intentionally abused. Avoid dropping it on the tail pin!

While the nut is narrow, the depth of the neck is shallow, flat, and comfortable. Great action. Slight radius fretboard. No side markers.

Overall, acoustically it is the same as the acoustic version. The effects are fun. The sound is bright, clear, powerful, and great sustain for a plastic ukulele. I would like to see delay, tone control, and a tuner on the electronics (and to see the price reflect this). Does not work with my 2.4 GHz wireless transmitter (interference).

| Scale Length | Measured Scale Length | Number of Frets | Side Marker Dots? | Body Style |
|--------------------|-----------------------|-----------------|--------------------------|----------------------|
| Concert | 15.75 inches | 18 | No | Double bout cut away |
| Sound Board | Back & Sides | Fretboard | Bridge | Radius Fretboard? |
| Polycarbonate | Polycarbonate | Polycarbonate | Polycarbonate | Yes! |
| Nut & Saddle | Compensated Saddle? | Finish | Overall Length & Weight | Tuner Type |
| Polycarbonate | Yes | Flat | 25.25 in., 1 lb. 9.2 oz. | Open geared |
| Action at 1st Fret | Action at 12th Fret | Nut Width | Space @ 1st Fret* | Depth @ 3rd Fret* |
| <0.5 mm | 2.5 mm | 34.53 mm | 7.98 mm (25.89 G-A) | 20.35 mm |

Accessories Included: Case, strap, extra strings, strap buttons, capo, charging cable
