Ukulele Methodology for the 21st Century

- Based on personal experience/story
- Students want to emulate what they see on YouTube
- Dr. Jill Reese began making play along videos in 2015
- I resisted using these videos, but gave in. The videos were a hit
- I started making my own videos: up to 450+
- Copyright is taken care of by YouTube
- But the work can go further
 - I studied the chord frequency used in the play along videos
 - I organized the songs in order of the frequency of chords into a method
- Visit UkeStuff.info (available through <https://www.buymeacoffee.com/ukestuff>)
- How to make the videos? Details on YouTube
<https://youtu.be/TP3jLclXVJA> (old video). New series of “how to” play alongs is in development, first episode is already out on YouTube.com/ukestuff
- Visit ukeplayalongs.com for the master index of all play alongs
- Remember: If people want to go further, they will!

What seems impossible today
will one day **become your warm-up**
